All Mistex colors also available in 3" hexagonal shape.

MISTEX presents a new kind of beauty in ceramic glazed tiles. The colors have been carefully keyed to blend with other MISCERAMIC floor and wall tiles. Used as an element alone, MISTEX produces a distinctive textured treatment. Its crystalline surface is unusually durable and wear resistant. MISTEX is available in 4¼" x 4¼" square tiles and in 3" hexagonals . . . both styles have self-spacing lugs for easy setting and uniform joints. Trim shapes are available for wall installations.

MISCERAMIC's plant, methods and equipment rank among the newest and most advanced in the United States. "One shade only" is guaranteed through MISCERAMIC's foolproof base glaze, stable color stains and electronic controls. Equally sensitive gauges hold tile dimensions to a rigid standard. Traditionally prompt service and a full line from a single source assures ready availability when you specify "MISCERAMIC." Full cooperation in planning at the local level is assured by a national organization of first-line, quality distributors.

For free estimates on MISCERAMIC Tile, see the yellow pages for your Tile Contractor, Ceramic.

In addition to wall and floor tiles, trims and fixtures, MISCERAMIC offers a complete line of adhesives, grout and other materials necessary for conventional mortar, and new thin set mortar and adhesive installations.

MISCERAMIC Tile is made in accordance with Simplified Practice Recommendation R-61-44 U.S. Dept. of Commerce and conforms to Federal Specification SS T 308 B for ceramic tile.
